1 Year Fixed Rate Saver accounts

1. The interest rate will not change during the term of the account.

If the minimum deposit amount (£1,000) isn't reached by the end of the deposit window, your account will be closed and any money deposited returned to your current account. This can take up to 3 business days for the funds to be returned to your current account.

Please be aware that your bank may have an individual transaction limit or daily limit for BACS payments or Faster Payments. **We can reject payments which are late or those that don't quote the correct savings reference number.** We can also return partial funds if a deposit takes your balance over the maximum balance allowed (£85,000) and return them to your current account by electronic payment without interest. This can take up to 3 business days for the funds to be returned to your current account.
4. The date your account matures will be a fixed period (the "term" of the account) after your account is opened.
5. On the date your account matures, we'll add the interest you've earned to your account and you'll be able to withdraw your money from the account or transfer to another savings account with us.
6. 30 days before your account matures, we'll email you to explain what you can do next. You'll be able to see these options and choose one or more by logging into your account up to 2 days before it matures.
7. If you don't select an option, your funds will be returned to your current account on the next working day after your maturity date.
8. You can't withdraw money from Fixed Rate Saver accounts prior to the maturity date. In exceptional circumstances we may consider waiving this but we're not obliged to do so. Examples of what we consider exceptional circumstances include bankruptcy, insolvency and diagnosis of a critical illness.
